

ProSeries™

TOP MOUNT SAND FILTER

Crystal Clear Sparkling Water.
Minimum Care.

Hayward Pro Series high-rate sand filters offer the latest in pool filter technology with smooth, efficient flow and totally balanced backwashing. Pro Series sand filters feature unitised construction of corrosion-proof, polymeric material and self-cleaning 360° slotted laterals. A versatile seven-position control valve offers both easy operation and maximum efficiency. Pro Series filters set a new standard for performance, value and dependability.

Minimal Maintenance for Added Convenience.

ProSeries™ Top Mount Sand Filters features and benefits:

- Multilateral Underdrain Assembly– with 360 degree slotted, self-cleaning laterals gives totally balanced flow and backwashing
- Flange Clamp Design- allows 360 degree rotation of valve to simplify plumbing
- Unitised Corrosion- Proof Tank- moulded of tough, durable, colour fast polymeric material for dependable all-weather performance
- Integral Top Diffuser- ensures even distribution of water over the top of the sand media bed
- Totally Corrosion- Proof Base- is rugged and styled to provide strong, stable support
- Integral Moulded Drain Plug- For easy draining of the tank without loss of sand
- Integral Sight Glass– To see when the backwash cycle is complete
- 50mm Unions included
- Patented Service-Ease Design- unique folding ball joint design allows lateral assembly to be easily accessed for simple servicing
- 50mm In/Out Vari-Flo 7- Position Control Valve Included
