# UNMATCHED RELIABILITY & EFFICIENCY

The new **Super II ECO VS** from Hayward

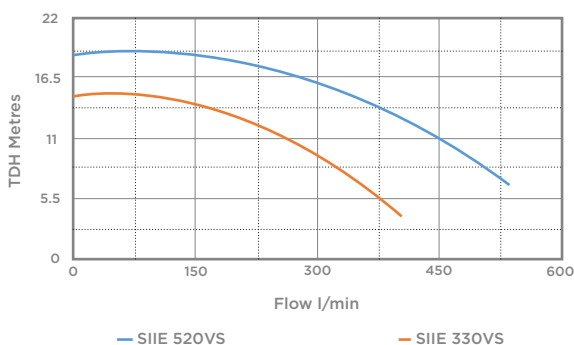

## Efficient, variable speed technology with super silent operation.

The Hayward Super II ECO Variable Speed Pump is specifically engineered for the demanding requirements of today's in-ground swimming pool/spa that are equipped with large capacity filters, heaters, and pool cleaning equipment. The variable speed, totally enclosed permanent magnet motor, combined with its advanced hydraulic design, optimises the three essential pump elements to deliver superior flow, whilst remaining energy efficient and whisper quiet.
